

X-GUARD

Rosin Paper

X-Guard is the professional choice in heavy-duty rosin paper. It is 70% thicker than commercial grade rosin paper to avoid tears and will last for weeks on the job.

X-Guard provides top of the line protection from damage caused by movers, spills, paint, tools and equipment, dirt, gravel and sand. Because of its thickness X-Guard works great as scribing paper, posters and banners. Just think of the uses for X-Guard in the garage.

Multi-purpose X-Guard is manufactured using high-tech fiber to protect, shield and cushion. Its quality provides the protection you have come to expect from the TrenTek family of products.

X-GUARD
