

CoverLine

Rosin Paper

CoverLine rosin paper offers superior protection from potential damage caused by spills, paint, tools and equipment, dirt, gravel, sand, parties, events, pets, craft projects and wear and tear caused by movers.

Heavy duty CoverLine is manufactured using a high-tech wood fiber to protect, shield and cushion. CoverLine is 70% heavier than commercial grade rosin paper to avoid tears while in use and will last weeks, rather than days.

CoverLine is brown on top and pristine white on the bottom to protect and wick away moisture, giving you the protection you have come to expect from all TrenTek products.
